Hey Shawn,

I hope your New Year is starting off well. Not sure what I sent you back in October but I think I just left off the "1", as in \$145,000 instead of \$45,000. It looks to be that even that is about 10% low based on what they have spent. There hasn't been any on-site work since September, but I'm still waiting on a trip report, so there might be a few more dollars to be billed.

Paul

Hi Paul,

Hi Paul,

How are you doing, I hope all is well. I had a question about Red River Supply. When I emailed you back in October you estimated the total costs to be about \$45,000 for the cleanup. I ordered an unreconciled cost summary from finance on 12.2.2014 and the costs to date are at approximately \$159,000. Just wanted to see if these look correct to you and if you are expecting anymore costs or if this is it. Thanks Paul, I hope to talk to you soon.
